\*This comparison illustrates the estimated electricity costs for a typical residential customer across the SCE territory with an average monthly consumption of 520 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2023 to December 31, 2023 for all applicable SCE Schedule D (non-CARE) service accounts within the jurisdiction of the City of Santa Barbara and SBCE's published rates as of April 1, 2024.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
